Hon. Victor Bovey of Ogle county, prominent farmer, twice a member of the Illinois legislature, and who was identified with township, county and state politics for years, died at the Dixon hospital Sunday night at 11 o'clock from injuries sustained from falling thirty feet into a stone quarry on his farm during the afternoon.

Some time ago he was in ill health and was taken to a private sanitarium at Waukegan. On his way to the institution he broke from his custodian and threw himself into a stairway leading into a basement of one of the buildings on a business street in Rockford. He sustained severe injuries from which he never fully recovered. He returned from the sanitarium about a week ago.

Mr. Bovey was about 60 years of age and leaves to mourn his loss, his wife and four children: Clayton, at home; William, a son-in-law of the late Judge Crabtree, of St. Paul; Maud, at home, and Mrs. Ray Baker of Ogle county. He also leaves two brothers and several sisters.

On account of the circumstances of his death it was necessary to hold a coroner's inquest. The inquest is now in progress and in tomorrow's issue a more complete obituary will be published.

Suicide Broker Was Subject
Of Telegraph Editorial In 1909

Concerning Clarence E. Smith, the Chicago promoter who helped to organize the Dixon artificial ice plant, and who committed suicide in Chicago Friday, an editorial which appeared in the Dixon Telegraph at the time he was in Dixon is pertinent. The editorial which was by the late B. F. Shaw, appeared in the Telegraph of May 19, 1909, as is:

A PROMOTER IN TROUBLE

Smith—it is too bad that a respectable family such as the Smiths are known to be should be so disgraced by an active member—we mean Clarence, the famous swindler, is caught and we hope that he will be properly punished. The writer hereof is a victim of Smith's swindles. Indeed, he swindled the editor of the Telegraph out of a good round sum. However, we have put many dollars in the same, never again to be by use seen.

Smith came here to Dixon for the purpose, he said, of giving our city a start into business life. Smith had a manufacturing enterprise that would be a good thing for Dixon. Smith was introduced to the writer by a Dixon man who had at heart the good of the city all right and the enterprise, it was said, might incidentally build up a good business for the young man. Smith was represented

SIXTH REGIMENT IS
NOT TO BE MOBILIZED

WILL BE LEFT WITH FIFTH AS EMERGENCY FORCE IN STATE.

CO. G. MEMBERS DISAPPOINTED

Officers and members of Co. G are unable to hide their disappointment over being left out of the Adjutant General's plans for the mobilization of the I. N. G. in response to the president's call for service on the Mexican border. Late dispatches indicate that the Fifth and Sixth regiments of the Illinois National Guard will not be mobilized, but will be left in the state for emergency work. An explanation lies in the fact that the Sixth regiment is not a part of a brigade, but is merely attached to the Second Brigade.

Everyone entitled to cast a vote on the \$10,000 bond proposition in the North Dixon school district should turn out tomorrow and do a duty. The schools on the north side of the river made a splendid record last year and in order to stimulate more interest the board should be encouraged in its effort to still further improve the schools.

CARRANZA TROOPS CLASH WITH
SAILORS FROM U.S.S. ANNAPOLIS;
NOTE TO CARRANZA REFUSES MOVE

145,000 STATE TROOPS WILL BE SENT TO BORDER TO RELIEVE REGULARS.

NAVY IS BEING RUSHED ALSO

Militia Mobilization Is Said To Have No Reference To General Pershing's Situation.

(Associated Press)

Washington, June 19.—Not since the Spanish-American war has the nation seen such military activity as it did today. More than 100,000 National Guardsmen are under orders to mobilize. All will be mustered into the federal service; and the militia of each state and the District of Columbia are preparing to meet at concentration camps where they will drill.

At Funston's Call.

Gen. Funston will determine when the militia organizations will be dispatched to the border for patrol duty, releasing 30,000 regulars for service in Mexico if war actually develops.

Naval Activities.

Seven destroyers and nine other small vessels have been ordered to join the American warships now in Mexican waters.

Meets Enthusiasm.

Reports from many states indicate that many militiamen are responding with zest to the president's call.

Sixth Not Going.

Plans for the mobilization of the Illinois National Guard, together with Michigan and other states comprising the Central Department, U. S. A., have been practically completed. In Illinois only the Fifth and Sixth regiments were not called.

Many From Chicago.

4,000 militiamen from Chicago are expected to be on their way to the mobilization camp in Springfield with in 48 hours.

Refusal is Ready.

The United States reply to Carranza's note demanding the withdrawal of American troops from Mexico is ready. It emphatically announces the refusal of the United States to withdraw troops from Mexico until Carranza curbs the bandits.

Tucson, Arizona, June 19.—Sonora military authorities have seized the Southern Pacific Railroad of Mexico system and cut all telegraph wires at the border, according to private advices here.

Washington, June 19.—The navy department announces that additional ships will be sent to the west and east coasts of Mexico.

Admiral Winslow, in command on the west coast, has been ordered to make selections of additional ships and to send them to various ports on the west coast.

Secretary of the Navy Daniels and Admiral Benson, chief aid for operations of the navy department, will confer and select the ships to be sent from the Atlantic coast.

None of the battleships will be sent at present, although it is expected that within a month the whole Pacific fleet and the whole Atlantic fleet will be seen on the Mexican coasts.

Washington, June 19.—President Wilson has issued an order calling out the militia of all the states for duty on the Mexican border. Secretary Baker issued a statement about 5:30 o'clock, after a lengthy conference with the president, saying the immediate mobilization of all the National Guard had been determined upon.

This will bring out 145,000 men to reinforce General Funston's border forces. This is the minimum strength but as the militia now numbers only 129,000 it will be recruited up to 145,000.

Mr. Baker's statement said the call for the militia is wholly unrelated to General Pershing's expedition and contemplates no additional entry into Mexico except as may be necessary to pursue bandits who attempt outrages on American soil.

The call was officially announced at the close of a conference between Secretary Baker and his staff that lasted all day.

Present at the conference besides the secretary were Major General Hugh L. Scott, chief of staff, and Brigadier General Alfred Mills, chief of the division of militia affairs.

The Illinois and New York Guards-

THIRD IS CALLED.

Aurora, June 19.—Colonel Greene, commanding the Third Infantry, Illinois National Guard at 6 o'clock this morning received a call to the colors. The regiment, with companies at Aurora, Rockford, Woodstock, Elgin and DeKalb, is mobilizing. The Elgin company, however, will not accompany the regiment in case it goes to Mexico.

Get Many Recruits.

Aurora, June 19.—Joliet, Mendota and Chicago Heights which have no national guard organizations, have hastily formed provisional companies and today asked to be taken into the Third Regiment. The Boy Scout drum corps of Oak Park also sought to enlist. It is probable that volunteers will be taken, Col. Greene said. Recruits have been called in cities where companies of the Third are stationed and hundreds have applied.

I. N. G. AMONG FIRST.

San Antonio, June 19.—It was indicated at headquarters today that Gen. Funston will first call the militia of New York, Pennsylvania and Illinois, believing he can make immediate use of these organizations.

It is reported that at the first sign of hostilities Gen. Pershing will seize a portion of the Mexico Northwestern railway.

COMPANY G WILL TAKE RECRUITS NOW

The officers of Co. G, Sixth Infantry, stated they would be at the Armory this evening to accept recruits to the company. It is expected the possibility of service on the border will cause many to apply for admission to the local military organization.

Drake Honors Griffith.

Ames, Ia., June 19.—Drake university honored Athletic Director John L. Griffith by making him vice president of the university. He fathered the now famous Drake relay carnivals.

Must Live in Town They Teach.

Marseilles, Ill., June 19.—The school board has declined to hire as teachers in future persons who decline to make their homes in Marseilles. It believes the teachers should spend at least part of their earnings here.

Illinois Osteopaths O. K. Suffrage.

Bloomington, Ill., June 19.—The Illinois Osteopath Association agreed to go to Galesburg for their convention in 1917 and endorsed woman suffrage and military training in schools and universities.

Molinee Head's Illinois Eagles.

Rock Island, June 19.—Emil Johnson of Moline was elected president of the Illinois Grand Aerle of Eagles. Bloomington was voted as the 1917 convention place.

Carranza Says United States
Broke Word About Withdrawal

The full text of the last note from Carranza to President Wilson—sent on May 30 to Secretary of State Lansing by Gen. Candido Aguilar, secretary of exterior relations for the Mexican de facto government, has come into possession of the Chicago Tribune.

It did not come over the wires from Washington, as only excerpts from the document have been given out from the capital. It was sent to the Tribune from San Antonio where, in Spanish, it was published in La Razo, a Mexican newspaper having a wide circulation on the border.

Translation of the note reveals the fact that the threat that "in the face of the refusal of the American government to withdraw its forces, nothing will be left to it (the Mexican government) but to undertake the defense of its territory by the force of arms" was by no means the only basis for the anger of President Wilson following his perusal of the note.

MEXICAN OFFICIALS SAY WAR NOW EXISTS

Galveston, June 19.—The Mexican government of Yucatan has ordered all Americans out of the province, declaring that a state of war exists between the two countries, according to advices that have reached here.

(Associate dPress)

Washington, June 19.—The Mexican embassy has informed Secretary Lansing of a clash between a boat crew from the United States gunboat Annapolis and Carranza soldiers at Mazatlan yesterday.

The embassy asked that in the present tense situation no men from any of the American warships be allowed to land in Mexico under any circumstances.

AMERICAN POLICY REMAINS UNCHANGED

Sec. Lansing's reply to Carranza's note asking withdrawal of troops will go forward today. In no way is the American policy changed.

IRRITATION AMONG MEXICANS INCREASING

State department advices show increasing excitement and irritation in many sections below the Mexican border. The dispatches are not being made public.

CONGRESS WILL ACT ON DRAFT PROVISIONS

A resolution making immediately effective the militia draft provision of the new army bill, whereby guardsmen consenting to take federal oaths will be available for service anywhere at once is being prepared by the war department and may be presented to congress today.

New Lombard College Head.

New York, June 19.—Joseph M. Tilden, formerly instructor in Erasmus High school in Brooklyn, has been elected president of Lombard college, Galesburg, Ill., and will take charge on July 1. He has been a resident of Flatbush for several years and has been prominent in church and civic affairs.

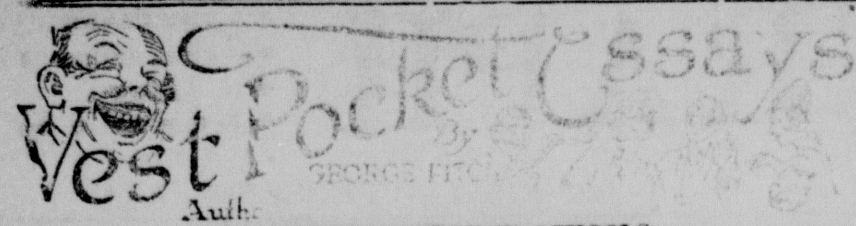

Gadsky's Case Set.

New York, June 19.—The trial of Captain Hans Tauscher, husband of Mine Gadski, the opera singer, on a charge of being implicated in a conspiracy to destroy the Welland canal in Canada in September, 1914, was set for Tuesday in the federal district court.

"seeing itself obliged to throw aside diplomatic euphemisms so as to be able to express its ideas with entire clearness," the Mexican government implies that the president has not kept his word with regard to the withdrawal of American soldiers from Mexican territory. It declares as "a patent fact" that such a state of affairs is continued for reasons of American interior "policies," a hint, perhaps, that the coming presidential election has something to do with the case, seeks subtly to involve South America and other Central American countries in the crisis by casting doubt as to the sincerity of the expressed intentions of United States toward them.

How the Latin-American relations of this country are led up to and bought into the note is worded as follows:

"It is necessary that the American government should define in a precise manner its intentions about Mexico, so that also the other Latin-American

CORRESPONDENCE SCHOOLS

A correspondence school is an educational institution with a long distance attachment which enables a man to stuff himself with knowledge at the rate of two cents an ounce, rural free delivery included.

It is easy to attend a correspondence school. All that is necessary is to be a good correspondent. A man need not be a careful dresser, or a durable runner, or a master with the banjo, or a swan-like dancer. He does not need to possess a wagon load of sofa pillows, or talent for organizing under-classes, or an inordinate nocturnal appetite for pie. All he needs is a bushel of two-cent stamps and a little spare time in the evening. With this equipment he can in a very few months familiarize himself with the principles of mechanical drawing, electricity, German, Spanish, shoulderless French, intensive farming, swimming under water, journalism, horse doctoring, ship building, Marathon running, cake designing, skyscraper planning, piano playing, preaching, law, scenario writing, auto driving, plain legislating, home plumbing, aviation or hair cutting.

It will thus be seen that the correspondence school has a vast curriculum.

SPORTING NOTES

Chicago, June 17—Terror hitting by the Cubs the past week put them in the lead in club batting in the National league with .265 and gave them places among the ten batters doing 300 or better. Averages published here today, which take in games played Wednesday, show Jake Daubert still leads the list with .345. Max Carey of Pittsburgh has resumed the lead in stolen bases with 18, but in most other departments the Cubs are ahead. Williams in home runs with 7 and in total bases with 99; Zimmerman in runs scored, with 33; and Flock in sacrifice hits with 19. The league's 300 hitters are:

Daubert, Cincinnati, .345; Schulte, Chicago, .338; Doule, New York, .333; Zimmerman, Chicago, .330; Robertson, New York, .329; Wheat, Brooklyn, .316; Hinchman, Pittsburgh, .313; Williams, Chicago, .306; Wagner, Pittsburgh, .303; Chase, Cincinnati, .301.

The ten leading pitchers who have taken part in ten or more games, follow:

American League.

Only seven regulars are hitting better than .300 in the American league. Burns of New York has edged into second place. Speaker still leads, .383, is ahead in total bases with 108 and in runs scored with 43. The unusual sight of a catcher leading the league in stolen bases is shown, with Ray Schalk of Chicago setting the pace with 14, one ahead of such speedy men as Cobb and Sisler. Graney of Cleveland, leads in home runs with four and Grandall, Cleveland, in sacrifice hits with 16. Detroit is ahead in team hitting with .256. The 300 hitters, including only those who have played in at least half of the games of their clubs, are:

Speaker, Cleveland, .388; Burns, Detroit, .346; Jackson, Chicago, .337; Cobb, Detroit, .331; Heilmann, Detroit, .310; Nunamaker, New York, .308; Smith, Cleveland, .303.

Cullop New York, won 5 and lost 0; Morton, Cleveland, 10 and 2; H. Coveleskie, Detroit, 8 and 2; Coumbe, Cleveland, 5 and 2; S. Coveleskie, Cleveland, 7 and 3; Faber, Chicago, 7 and 3; Ruth, Boston, 9 and 4; Johnson, Washington, 10 and 6; Leonard, Boston, 5 and 3; Shawkey, New York, 5 and 3.

Harmon, June 15—The rains have been keeping farmers back with their corn plowing; the grass is beginning to make the fields look green and the corn is becoming a yellow color, not the dark green that it should have to be a healthy growth. It is small for the time of year; only about three inches high in most fields when it ought to be six or eight inches. The stand seems to be very good; if it should keep on raining the weeds will get the advantage of the farmers so that it will be hard to keep them down, hay and pastures never looked better than they do at present. WIDOW OF ASTOR IS WED TO OLD FRIEND

Gives up Income on \$5,000,000, but Still Rich.

New York, June 19.—Mrs. Madeleine Force Astor, widow of Colonel John Jacob Astor, who lost his life in the Titanic disaster four years ago, was married in Bar Harbor, Maine, to William K. Dick, vice-president of the Manufacturers' Trust company, and member of a family long identified with the sugar refining industry.

Mr. Dick and his bride will go to the west, returning in about a month, and will make their home at Islip, one of Long Island's fashionable colonies. Mr. Dick is twenty-eight years old, four years older than Mrs. Astor. They were friends for many years before Miss Force's marriage to Mr. Astor.

Mrs. Astor, through marriage, will lose the income from a trust fund of \$5,000,000, which her husband set aside for her, and also the right to residence in the Astor mansion on Fifth avenue. The trust fund and the house will revert to Mr. Astor's son Vincent, in accordance with the terms of Mr. Astor's will.

Mr. Astor is known to have settled a large sum, estimated as high as \$20,000,000, on his wife at the time of their marriage. This sum will not be affected in any way by her marriage to Mr. Dick. At any rate, Mr. Dick is himself a millionaire, his fortune being between \$2,000,000 and \$3,000,000.

DOWNY WOODPECKER

Dryobates pubescens

Length, six inches. Our smallest woodpecker; spotted with black and white. Dark bars on the outer tail feathers distinguish it from the similarly colored but larger hairy woodpecker.

Range: Resident in the United States and the forested parts of Canada and Alaska.

Habits and economic status: This woodpecker is commonly distributed, living in woodland tracts, orchards, and gardens. The bird has several characteristic notes, and, like the hairy woodpecker, is fond of beating on a dry resonant tree branch a tattoo which to appreciative ears has the quality of woodland music. In a hole excavated in a dead branch the downy woodpecker lays four to six eggs.

This and the hairy woodpecker are among our most valuable allies, their food consisting of some of the worst foes of orchard and woodland, which the woodpeckers are especially equipped to dig out of dead and living wood. In the examination of 73 stomachs of this bird, animal food, mostly insects, was found to constitute 76 per cent of the diet and vegetable matter 24 per cent. The animal food consists largely of beetles that bore into timber or burrow under the bark. Caterpillars amount to 16 per cent of the food and include many especially harmful species. Grasshopper eggs are freely eaten. The vegetable food of the downy woodpecker consists of small fruit and seeds, mostly of wild species. It distributes seeds of poison ivy, or poison oak, which is about the only fault of this very useful bird.

TOM MOORE

BEING ONE REASON WHY MOORE IS HIS OWN BARBER NOW

Tom Moore is a slender young Irishman of more than ordinarily acute sensibilities. Also, he is one of the stars of Pathe's "Who's Guilty?" series of photo-novels which the Arrow Film Corporation has produced. And his work on the screen makes him just that much more sensitive to every-day impressions. Which leads up to the reason why Moore now shaves himself.

Recently he had a few minutes between the scenes and so he chased out of the Arrow studios up in Yonkers, thinking to utilize the time to get his hair cut in a neighboring barbershop. Shortly after he had seated himself in the chair he noticed that the barber's dog sat down right next to the chair and began intently to watch the barber work.

"Pretty nice dog, that," said the genial Moore.

"Yes, sir," from the barber.

"He seems to like to watch you at your work," continued Moore.

"Oh, it isn't just that, sir," said the barber. "You see, I sometimes make a mistake and snip off a little bit of a customer's ear."

And that barber still is wondering when he will see Moore again.

TOM MOORE FINDS THE BUSINESS END OF A DOG

Tom Moore, who is co-starred with Anna Nilsson in the new "Who's Guilty?" series of photo-novels, which the Arrow Film Corporation has produced for release through the Pathe Exchange, once served an enlistment in the New York National Guard. Until recently he had never told why he so summarily left the militia service. Now he lets the cat—or dog—out of the bag.

It seems that Moore was doing sentry duty one night in the annual camp. A rather flea-bitten dog prowled along Moore's dimly lighted post and bothered the young soldier nearly to death. Moore ended the affair in his own way.

The next morning he was summoned before his company commander. "Moore!" said the officer, "here's a young woman who says you killed her dog last night. What about it?"

"He did it, I know he did it," sobbed Moore's female accuser. "My dog was dead right where that soldier paraded back and forth. I think it's a crime to kill a defenseless dog like that!"

"Nothing defenseless about that dog," cheerily answered Moore. "He took a good bite at my leg—so I jammed my bayonet into him."

"Why stick him with your bayonet? Why," asked the captain, "didn't you defend yourself with the butt of your rifle?"

"Huh!" retorted Moore. "Why didn't the dog bite me with his tail?"

ELECTRICIAN LOSES LIFE WHERE PEARL WHITE DARED

Positive proof of the real danger which Pearl White, "Pathe's peerless girl," underwent when she painted the wall sign on the top of the Gerard Building, New York, a few days ago, was furnished by the fatal fall of an electrician from the same building on the afternoon of the 9th. The electrician, Martin by name, was making use of the electric sign as a ladder, just as Miss White did, and losing his footing, fell twenty stories to the street.

Pearl White, the "peerless fearless" (take it from the press agent) girl of the Pathe "Iron Claw" serial, laughed so hard in the telling of this one that we don't know whether we have it straight or not. However, last week, Pearl had occasion to hire a woman to come in and do work by the day. She was an English woman, and her references and appearance were all in her favor. Everything was settled but the consideration of wages. "What is your price?" asked Pearl. "If I eat myself, two dollars and a quarter," said the woman; "if you eat me, one seventy-five."

THE DEATH OF VICTOR BOVEY.

The passing of Victor Bovey of Pine Creek, Ogle county, brings a pang of true sorrow to many hearts, for "Vic" Bovey, as he was known to his friends, was truly a gentleman of rare good qualities. He was kindly and jovial, a good father and husband and a good neighbor. His standing in the community in which he lived was ample testimony of the place he held in the hearts of those who knew him best. The world is better for the living here of men like Victor Bovey. A brave and honest soul has gone to rest and to reward, as sure as any man will get reward, in the hereafter.

WAR COSTS EIGHTY MILLIONS DAILY.

Henry Clews, in his weekly financial letter, says in part:

Because of numerous and strongly conflicting forces a very mixed situation exists in the financial district. The war is being more vigorously pushed than ever, and aside from a fearful waste of life, is costing over \$80,000,000 daily, a goodly portion of which is coming this way. This latter sum is not all additional loss, because many millions would be spent in any event for feeding and clothing the millions of men engaged in peaceful pursuits. Armies and navies would have to be paid for even in times of peace and it must be remembered that the territory and industrial plants of two of the most important belligerents have escaped thus far without damage. The awful struggle has cost terribly in blood and wealth; some losses being entirely beyond calculation; but some deductions have to be made from current outlays, and nothing is gained by exaggeration or miscalculation. The financial position of some of the belligerents will be a serious matter of adjustment when peace comes, and that period cannot be safely predicted. There is a very suggestive growth of optimism in this direction, and belief grows with strange persistence that the war will end during the present year rather than face another dreadful winter.

Expectation of peace must have some foundation; though whether it has its origin in weariness of spirit among those who suffer or recognition of coming disaster by those who govern, cannot be determined. Perhaps war madness is giving way to peace sanity—at least let us hope so.

As peace approaches this country will gradually adjust itself to the new conditions. A few departments of industry may suffer, but many more will benefit by return to the normal. Temporary reactions may come with or after peace, but it stands to reason that in the long run the world will benefit by the restoration of productive efforts and the stoppage of destruction. Very likely the recuperative powers of all the contestants will be greater than expected. We will lose much of the munition traffic, but may look for expansion in steel and other industries, in foreign trade, in shipping and in development of the many enterprises deferred by war. This country is wonderfully strong industrially and financially, and is better prepared in many respects—costs of production excepted—for trade expansion than any other nation.

Another favorable factor is the political outlook at home. Many business interests are gratified at the nomination of Mr. Hughes as the republican candidate, since his leadership not only strengthens their hope of success, but also assures a campaign free of unnecessary animosities and disturbances. The nomination of Mr. Wilson means a check to extreme radicalism. As already stated in these advices, the chief issues will be patriotism, preparedness and the tariff, the two former including a more vigorous though peaceful foreign policy. Since there is no great division of opinion about these problems, the outlook is for a comparatively quiet, although lively campaign. The output of new legislation will be at a minimum.

Daddy's Bedtime

What a Fiddler
Met In a
Big Woods.

[Adapted from Grimm's Fairy Tales.]

"CAN you think of a story, daddy?" asked Jack. "Oh, lots!" cried daddy. "I know one right now about a fiddler that met a wolf, a fox and a hare in a big woods. When they liked his music and wanted to learn to play the fiddle he always managed to catch them. He even tied a string around the hare's neck and told her to run twenty times around an oak tree. Of course when the silly hare did this she wound herself up into a prisoner, and the harder she pulled to get away the faster she tied the string. Instead of teaching her to play the fiddle, 'Wait till I come back,' said the musician."

"But the wolf, which the fiddler had left caught in a tree trunk under a stone, scratched the stone away. He was so angry at being caught that he said, 'I will tear that rascally fiddler to pieces!' When the fox, which was left hanging in a hazel bush, saw him he cried, 'Pray, Mr. Wolf, let me down from this bush where the fiddler tried to hang me.' So the wolf gnawed the bush in two and set free the fox. When they passed the hare they bit her string in two and, all free now, set off together to find their enemy, the fiddler."

"Meanwhile the fiddler had been playing away to find another companion. A poor woodchopper had been pleased with his music and was following it with his ax under his arm. Now, the fiddler was delighted at last to find a man for a playmate. So he played no tricks on the woodchopper, but instead stopped and fiddled merry tunes till the woodchopper's heart overflowed with joy."

"While they stood in the woods enjoying the good music the woodchopper looked up and saw the wolf, the fox and the hare coming. Their faces were very angry, and he knew at once that they were in a great rage about something. He also knew that they had come to do all the mischief they could."

"So he stepped in front of the fiddler and held up his big ax as much as to say, 'No one shall hurt him while I have this good ax.'"

"The wolf, the fox and the hare stopped suddenly and looked at the big woodchopper standing in their way. And what do you think they did?"

The children guessed and guessed. "They were so frightened that they ran off into the deep woods just as fast as they could scamper," said daddy.

"So the woodchopper and his ax saved the fiddler a good beating. Then he played his friend all his merriest tunes for the good help and then went happily through the woods on his journey," said daddy.

"Thank you, daddy!" cried the children.

"Q" DOUBLE TRACKS LINE

Railroad System Exp'ds to Push Improvements on New Property.

Duquoin, Ill., June 19.—The C. B. & Q. Railroad, one of the strongest competitors for the bulk of the Southern Illinois coal traffic, has begun extensive improvements on its roadbed in Franklin County between Christopher and Sesser. Eight miles of double track are being laid between those two towns while another crew are doing similar work between Waltonville and Centralia.

It is understood the Burlington will double track between Christopher and Zeigler, Joe Leiter's famous mining town now controlled by the Bell and Zoller interests of Chicago. The Burlington will eventually have the double track system on the entire Centralia-Herrin division and it is likely that the double track will extend eventually the length of the state from the Ohio River on the Southeast to the Mississippi on the northwest.

THEY DECEIVE WITH PICTURES

Favorite Method of the Catalogue Houses.

THE FARMER AND THE COW

Would He Buy One From a Picture? Mail Order Houses Use Exaggerated Drawings and Paintings Instead of Photographic Reproductions—Stung and Nothing Is Said About It.

[Copyrighted, 1914, by Thomas J. Sullivan.]
A book with pictures and a book without pictures differ nearly as much as a room with windows and a room without windows, for pictures are loopholes of escape to the soul, leading it to other scenes and spheres where the fancy for the moment may revel, refreshed and delighted. They are windows of imprisoned thought.

A picture is invariably an exaggeration of the object reproduced, and, generally speaking, to please it must deceive.

Of Deceptive Value.

The deceptive value of drawings or paintings over photography is recognized by no one more fully than by the great catalogue houses, hence their adoption of the most expensive method of displaying their goods to the public, well knowing that photographs tell the truth, so far as a correct pictorial reproduction is concerned, and would not be conducive to good business methods when the goods offered are faulty.

How many farmers would think of buying a cow from a picture in a newspaper or catalogue, with just a name and description under it? Of course the description would say that the cow was a fine black and white cow, weight 800 pounds and so many hands high, free from blemishes and offered at the reduced price of \$39.97 because of a spot cash deal with a stock farm which failed.

There is as much sense in a purchase of that nature as there is for a farmer to buy a buggy, "our own brand," at \$24.70 when he can get the real article from his home dealer for \$25 and have the privilege of inspecting it before buying. And no freight to pay.

Did Farmer Consider Everything?

While talking to a farmer the following was gleaned: "Farmers, as a rule, do not like to send their money to Chicago or any other place for their goods. They would rather buy of their local merchants if their prices are not out of reason. Merchants generally buy their goods where they can get them the cheapest, whether in Chicago, New York or Asia, no matter how much of the same goods the farmer has to sell. The price is the first and last consideration. They fix the price of what he sells as well as what he buys. Can the farmer be blamed for buying where he can get the best bargain? He wants to enjoy the same privilege as the merchants do. Fair play is all he wants."

A Business Injustice.

But did the farmer who made the above remarks take everything into consideration? Did he remember that while the local business men are maintaining markets for the farmers, assisting in making roads to these markets and doing all they can to help the farmer, the mail order houses that have not a cent invested in his vicinity do not buy a dollar's worth of the farmer's crops nor contribute a cent to the welfare of the community? Yet they are getting a goodly portion of the local trade, and business men naturally feel that it is an injustice. It is, and the only way to overcome it is by ADVERTISING.

Visit to Country Town.

Merchants should publish a comparison of their prices with those of the retail catalogue houses—fight them with their own weapons. While visiting a country town recently the writer made some investigations and discoveries. For example, a Chicago mail order house was selling 100 pound grindstones mounted for \$3.10. The local merchant sold the same article for \$3.25; freight from Chicago, 55 cents, making the mail order article cost \$3.65; seam roofing, \$2.85 in Chicago and \$2.90 from the local merchant, freight 15 cents per square to be added to the \$2.85, making it \$3.05 delivered; washing machines, \$3.85 against \$3.75, freight 25 cents to be added to the \$3.85. These are facts which every merchant can prove and keep right on proving all the time.

Cash at Home Too.

Local merchants will quote prices on goods so low that catalogue and mail order houses cannot duplicate them. But you must pay cash. Mail order houses demand the cash in advance. Why not pay the local merchant in advance? Besides, when you buy from a catalogue you send your money away from your home town. You buy from a picture and wait a week or ten days for the goods to arrive; then you open up your "prize box" to see what you really have drawn in the lottery and what you have to show for your money. If you have drawn

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

SAYS UNCLE SAM BROKE HIS WORD

(Continued from Page 1)

nations can judge of the sincerity of these and can consequently, appreciate at their just value the assurances of friendship and fraternity that have been made to them for many years."

Criticism Directed at Wilson.

The implication that President Wilson has failed thus far to keep a promise with regard to withdrawal of the troops under Gen. Pershing is contained in the following extract from clause 24 of the note:

"The American government has manifested through the mouth of the president himself that the punitive expedition from Columbus would with draw from Mexican territory as soon as the party of Villa bandits should have been destroyed or dispersed. More than two months have passed since this expedition has penetrated into Mexican territory. Gen. Scott and Funston have declared in the city of Jaurez that the bands of Villa are entirely dispersed, and, nevertheless, the troops do not withdraw from Mexican territory."

HARMON

Harmon, June 18—Since the rains the farmers have been very busy in the fields, blowing corn and making hay. Those that have alfalfa have been making it.

John Wadsworth was having his crop of corn shelled and drawn to market Tuesday.

Albert Bolton was having his corn shelled and drawn to market Wednesday.

Thomas Drew of Nelson was in Harmon Wednesday.

The show in Harmon has been having much patronage every night. Many come in from the country. The town is full of people every night; one night I counted not less than 20 autos which brought their families to attend the show.

Strawberry making is going on. Martin McDermott was a caller from Marion Wednesday on business.

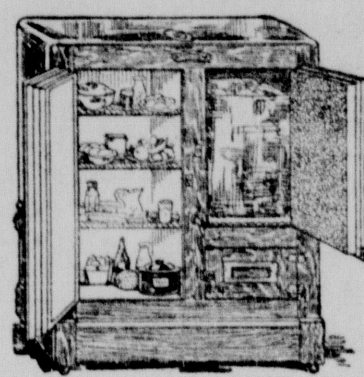

Some Harmon people went to Walnut Wednesday to attend the Woodmen picnic at that place. I understand that they made great preparations for it.

Most of the business men of Harmon had their flags hung out on Wednesday, Flag day.

Our implement men have been selling considerable farm machinery this spring.

The men who have been working on the tower of the waterworks for some time have finished their work. The last thing that they did was to paint the tower; it makes quite an improvement in the looks of it. The painters at the depot have finished their work.

Attorney John Stager and wife of Sterling dined at the Nachusa tavern yesterday.

Charles Longbein was in from R. 1 Tuesday. He had his automobile in the local garage for while motoring on the previous evening a car from near Mendota ran into his machine and injured it considerably. The fellow knew he was to blame and is willing to pay the cost of repairing the car.

The highway commissioners are working on the roads leading from town these days in order to get them in shape for the spreading of the oil. The rainy weather put the roadbed in bad shape for the oiling and as the commissioners are anxious to do only good work they took the time to grade and level the roads again this week.

Our prediction is that West Brooklyn will have the ideal restaurant of Lee county for the entire set of fixtures and equipment of the latest design and include such luxuries as electric piano, electrically controlled devices for mixing soft drinks, etc., marble soda fountain, rest room, dining parlor, toilet, etc. Nothing for the convenience of the customers nor for the beauty of the room has been spared in furnishing the new restaurant and surely Mr. Long is to be congratulated for his enterprise in furnishing our village with such an attractive place.

And Still We Win.

The Harmon baseball team was defeated for the third time this season on Sunday afternoon by the local nine in a fast game by the score of 5 to 8. The personnel of the Harmon team was somewhat different from that of the team that played the two former games against the locals but that did not make any difference to the local players. The game was the best and most exciting of the season to date, for the Harmon boys had a goodly number of rooters with them to encourage their nine but their rooting could not counterbalance the better playing of the West Brooklyn nine. The Harmon nine must not feel downhearted over their three successive defeats, however, for they must bear in mind that they have been playing the champions of Lee county. West Brooklyn has now won six straight games and lost none.

CORROBORATION

Of Interest to Dixon Readers

For months Dixon citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Dixon residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Dixon reader.

B. A. Worley, blacksmith, Pearl Ave., Dixon, says: "The action of my kidneys was irregular and annoying and my back ached after using Doan's Kidney Pills, the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

OVER TWO YEARS LATER, Mr. Worley said: "Whenever my back gets lame and sore and I need a kidney medicine, I use Doan's Kidney Pills. They give me relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Worley has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Paris and Berlin Reports Show
Hot Fighting.

HEAVY ATTACKS REPULSED

Fighting Is Fiercest About Thiamont
Farm Where German Assaults
Against New French Positions Are
Beaten Back—Berlin Claims Teu-
tons Retook Small Trench from Foe.

Paris, June 19.—Several attacks by
the Germans on the new French po-
sitions in the Dead Man Hill region,
northwest of Verdun, were repulsed,
the French maintaining their recent
gains, the war office announces.
The Germans suffered heavy losses
in futile attacks on French trenches
in the Thiamont sector to the east
of the Meuse.

Out French from Trench.

London, June 19.—The chief fight-
ing on the Verdun front last night
shifted to the sector around the Thia-
mont farm, where the French made
a heavy attack Saturday night, but
failed to advance and were thrown out
of a trench they had captured by a
German counter attack. Heavy arti-
llery action in the region of Hill 304
and Mort Homme is also reported in
both the German and French official
statements received.

Unusual activity on the part of the
aviators of both sides is revealed in
the official reports. The destruction
of three French machines is reported
in the Berlin statement, while Paris
reports bringing down seven German
machines and doing considerable dam-
age by aerial attacks at various points.

Germans Claim Success.

Berlin, June 19.—The German offi-
cial statement says:
"Western front—On the right bank
of the Meuse a French attack on
German positions in Thiamont wood
broke down. A small first line trench
taken by the enemy was cleared.

"A French biplane was brought
down near Lassigny. In the region of
Bezange La Grande two French aero-
planes were shot down. Eastern
front—General von Linsingen repul-
sed Russian attacks on the Styron
on both sides of Kolki. Between the
Kovel-Lutsak road and the Torga sector
our troops captured eleven Rus-
sian officers, 3,446 men, one cannon
and ten machine guns.

"Before General von Bethmer's ar-
my enemy attacks north of Pzelow-
ka broke down."

GIRLS TESTIFY IN ORPET CASE

Eighteen of Marion Lambert's Friends
Aid State.

Waukegan, Ill., June 19.—Eighteen
18-year-old girls were called into the
murder trial of Will H. Orpet here
to testify for the state to impeach
the testimony of Josephine Davis, who
asserted that Marion Lambert, Orpet's
alleged victim, had threatened to take
her life because of Orpet's lost affec-
tions. These girls had attended Miss
Lambert's eighteenth birthday party
on Feb. 6, three days before Marion
was found dead in the Helms Woods
near Lake Forest.

The testimony of the witnesses cor-
roborated that of the dead girl's
mother, who had testified that her
daughter was of a sunny disposition
and that she had never given any intima-
tion that she contemplated suicide.

M'CORMICK TO ACCEPT POST

To Take Chairmanship of Democratic
National Committee.

Harrisburg, Pa., June 19.—Vance C.
McCormick, the newly named Demo-
cratic national committeeman, received
a telegram announcing his election to
the chairmanship and said that he
would accept.

"I shall confer with the president
and the leaders within a short time
and start an aggressive campaign,"
he said. McCormick said that he had
not yet made an appointment to see
the president.

Police Kill Strikebreaker.

Gulfport, Miss., June 19.—In a pis-
tol fight between police and nonunion
men brought here to take the places
of striking trainmen on the Gulf &
Ship Island Railroad, E. C. Triggs of
Detroit was shot and killed. Wit-
nesses at the coroner's inquest said
the trouble started when ten police-
men began following Triggs and fif-
teen other imported trainmen from a
passenger train to their quarters.
Witnesses asserted Triggs was armed,
but that the police fired first.

Jews Give \$50,000 for Relief.

Jewish war relief committee has con-
tributed \$50,000 to be used in aiding

MILITIA OF U. S.
ARE CALLED OUT

(Continued from page 2)

men will be the first to be sent to the
border, as their officers volunteered
the services of their organizations.

A call for volunteers also is con-
templated, it is understood. One report
is that this phase of the situation was
considered at the conference of the
general staff.

Telegrams Sent Governors.

The official statement issued by
Secretary Baker says:

"In view of the disturbed conditions
on the Mexican border and in order
to assure complete protection for all
Americans, the president has called
out substantially all state militia and
will send them to the border wherever
and as fully as General Funston de-
termines them to be needed for the
purpose stated.

"If all are not needed an effort will
be made to relieve those on duty
there from time to time so as to dis-
tribute the duty.

"This call for militia is wholly unrel-
ated to General Pershing's expedition
and contemplates no additional entry
into Mexico except as may be neces-
sary to pursue bandits who attempt
outrages on American soil.

"The Militia is being called out so
as to leave some troops in the several
states. They will be mobilized at
their stations, where necessary re-
cruiting can be done."

At six o'clock, half an hour after
Secretary Baker's statement was
made public, it was officially announ-
ced that telegrams had been dispatched
to the governors of the forty-eight
states embodying the president's call
for immediate mobilization.

Mobilization, war department heads
said, would be speedy.

In many states, including New York,
Illinois, Massachusetts, Wisconsin,
Pennsylvania, Ohio and others recruit-
ed to full strength, troops will be mov-
ing to mobilization points within a
few hours.

General Mills placed before Secre-
tary Baker and his staff advisers full
reports to show the state of prepara-
tions of the national guard.

Officials Perfecting Details.

Feverish activity was manifested at
the war department throughout the
day with secret conferences, uninter-
rupted only by luncheon, between
Secretary Baker, Generals Bliss, Scott
and Mills. Before Mr. Baker depar-
ted for the White House, Brigadier
General M. M. MacComb hastened to
the war department with "war plans."

A large force of officials was called
to the department to perfect the de-
tails for transporting the troops. Tele-
grams from General Funston poured
into the department saying the situa-

tion is becoming hourly more danger-
ous in many border towns.

U. S. Forces Withdraw.

Brownsville, Tex., June 19.—Having
accomplished its object, the dispersing
of Mexican bandits, who Friday night
made raids on Texas ranches and at-
tacked a detachment of the Twenty-
sixth infantry, east of San Benito,
Texas, and upon promises of the Cap-
tanza commander at Matamoros that
he would run down and punish the
outlaws, the fourth American punitive
expedition to enter Mexico has been
withdrawn. There were no American
casualties.

One bandit was killed and two
wounded when bandits attacked the
American rear guard at Tahuachal
ranch, ten miles from Matamoros, just
as they commenced their withdrawal
to the American side of the river. It
was reported to Fort Brown that the
dead bandit wore a Carranza soldier's
uniform.

Americans on Guard.

Columbus, N. M., June 19.—Reports
reaching here from the Pershing pun-
itive expedition in Mexico indicated
there were no serious developments
Saturday night and Sunday morning.

Army officers here say that if Gen-
eral Trevino is in earnest General
Pershing will not be caught unawares.
Preparations have been made for any
emergency.
